

THE BENALLA BENCH

Quality, style, strength and durability all combine to form the Benalla bench. Chunky Kwila timbers with single legs give this bench a robust appearance.

The modular design of the Benalla allows a maximum of flexibility. The benches may be mitred or butt joined to create angles if required. Frames come in either a galvanised or galvanised/powder coated finish for installation in either a bolt-down or in-ground application.

Dimensions

Specifications
