

THE PARKS BIN SURROUND

Designed to complement our Glen series seat, the Glen bin surround is manufactured to withstand the requirements of inner city living. The combination of a fabricated steel frame and timber slats make this bin surround ideal for a park setting or a busy suburban streetscape.

The Glen bin surround comes with the added security of a lockable door and is available in a variety of powder coated colours. The steel frame is hot dipped galvanised to ensure a long service life.

Dimensions

Specifications
