

# THE STEEL SLATTED LITTER BIN

A popular and time proven design, the Steel Slatted litter bin provides a robust cost efficient and flexible option. Available in a 55 litre bin capacity, and able to be powder coated in a variety of colours, this bin is suitable for almost any application. It's fully welded steel frame construction and the choice of either an in-ground or bolt-down format further enhance the broad appeal of this heavy duty bin.

## Dimensions
